

Digital infrared thermometer

EF235

Fast, Easy and Safe

Autonomous infrared thermometer (don't need a nursing technician taking measurements), measures the temperature on the person's wrist instead of his forehead, avoiding the discomfort it may cause, with audible and visual alarm, allows to control turnstiles or doors.

Non-contact temperature measurement

Measures in less than 0.5 seconds

0.2 °C accuracy

0.1 °C resolution

Measuring distance from 5 to 10 cm

Measuring flow: 50 people / minute

High visibility digital display

Visual and audible alarm

Greater security, non-contact measurement

Technical specifications

Temperature sensor	Infrared
Temperature measuring range	0 °C to 50 °C
Accuracy	±0.2 °C (34 °C to 45°C)
Resolution	±0.1 °C
Response time	< 0.5 second
Measuring distance	5 to 10 cm
Temperature unit	°C or °F
Alarm	Visual and audible
Display	2,8" LCD
Power supply	4x AA batteries or 5 V AC adapter
Storage temperature	-20 °C to 55 °C
Operating temperature	0 °C to 50 °C
Humidity	≤ 85 %
Dimensions	170 x 150 x 140 mm
Weight	350 g
Models	
EF235	Without stand
EF235P	With stand
